ASTON MARTIN

COMPANY PROFILE

FORMITALIA LUXURY GROUP

The story of FORMITALIA's success began with brothers David and Gianni Overi; their vision was to create an entirely hand-crafted home concept formed of elegant, striking pieces made entirely in Italy. Their collections of furniture for the home and office, under their own brand and that of their partner Tonino Lamborghini, can today be seen in the most prestigious villas, hotels and luxury boutiques in more than 50 countries worldwide, and now through their own network of mono-branded stores. They have also created a luxurious and exclusive range of personal accessories which can often be found alongside their furniture.

The FORMITALIA Group was founded by Graziano Overi in 1968 and created the first design collection under the FORMITALIA name in 1991, known as the Boutique Collection. Intricate prints in pure silk from Como and fine detailing in metals and leather were created by highly skilled Florentine craftsmen, the exquisite quality of the pieces achieved by drawing on their depth of knowledge and also the luxurious raw materials employed in production which include crocodile and ostrich leathers. Such materials have since become central to the FORMITALIA image.

All FORMITALIA's products are hand-crafted in the Tuscan region, in Firenze, Prato, Pistoia and Pisa. The originality

and character of the brand remains evident through the distinctive shapes of their designs, the outstanding quality of materials and enduring love of leather. From luxurious and spacious living rooms to sleek and sophisticated bedrooms, FORMITALIA continues to create stylish pieces for a unique and beautiful home-setting.

In 2002 FORMITALIA acquired the Mirabili Arte d'Abitare brand, created by Sergio Cammilli in 1980, which continues to grow in popularity. The collection includes limited edition works of art, created by 38 internationally-recognised artists including Barni, Cammilli, Ceroli, Corneli, Crema, De Poli, Fallani, Grittini, Lodola, Mendini, Natalini, Ontani, Portoghesi, Purini, Ruggiero, Santachiara, Sottsass, Talani, Tolomeo, Urano-Palma and Villani.

In 2005, Tonino Lamborghini formed a partnership with FORMITALIA to create a range of furniture as part of their lifestyle collection. Vibrant colours and the highest quality leathers define the collection, inspired by some of the world's most seductive supercars. The most recent venture with Tonino Lamborghini has been a range of innovative designer kitchens, every aspect of which is fully lined with leather, including household appliances. A limited edition collection is also available, which utilises carbon and Kevlar elements.

In 2008 MIAMI SWING merged with FORMITALIA, and Renzo Arbore, Alida Cappellini and Giovanni Licheri joined the group; the Miami Swing collection was a result of Renzo Arbore's passion for vintage products from the 1950s and 1960s. His theme was further developed by designers Alida Cappellini and Giovanni Licheri who used dynamic colours, smooth edges and visionary prints to create an exciting and eye-catching collection.

In 2011 FORMITALIA unveiled a new interiors collection in collaboration with prestigious British sports car manufacturer Aston Martin. Complete with accessories and lighting, the Aston Martin Interiors collection is designed to create a distinctive and exclusive offering for a consumer who appreciates exceptional design and original pieces. Designed in conjunction with Aston Martin, and made in Italy, the collection creates synthesis between advanced, industrial technologies used in Aston Martin cars such as carbon fibre, magnesium and aluminium, alongside materials such as leather, wool and cashmere; a perfect fusion of performance, design and comfort.

HANDBUILT

MADE IN ITALY

FORMITALIA TO THE FORE

In association with Italian furniture specialists FORMITALIA, the Aston Martin Interiors collection is the first of many new exciting projects that will emerge from both brands. Pull up a chair...

In April 2011 FORMITALIA showcased the new Aston Martin Interiors collection at DUOMO, unveiling the capsule range from their brand new furniture collection, which immediately ignited interest from designers and car enthusiasts alike. This year they will show the entire interior concept on the world stage at their stand of Milan's famous Salone Internazionale del Mobile furniture fair, with a special event on 18th April 2012 at the Aston Martin Milano showroom. The sleek and seductive collection has been developed specifically to reflect the uncompromising level of design, comfort, luxury and performance embodied by a modern Aston Martin sports car: bespoke frames incorporating wood, steel and carbon fibre all combined with fine leathers and wools to offer ergonomic and luxuriant comfort to the owner, a stylish and sophisticated addition to any contemporary living space.

Like all of FORMITALIA's furniture, every piece in the Aston Martin Interiors collection is 'Made in Italy' in the Tuscan region, in the cities of Firenze, Prato, Pistoia and Pisa. The first Formitalia design collection was created in 1991, its instant and continuing success stems from the high level of knowledge and understanding of leather hides, and its selection of the most valuable tanning treatments, from ostrich to crocodile. The knowledge accrued through various partnerships with luxury brands including the architect Mirko Tattarini Monti have provided Formitalia with the expertise required to communicate Aston Martin's brand values of Power, Beauty and Soul.

Managed by brothers David and Gianni Overi, Formitalia is today focused on design concepts that offer a carefully integrated solution for the home, office and corporate environments, making them popular across a diverse range of clients. Their influence spans the interiors of magnificent villas in the most exclusive locations to hotel developments and cultural destinations around the world.

This sleek, seductive and sophisticated collection has been developed specifically to reflect the uncompromising level of design, comfort, luxury and performance, embodied by a modern Aston Martin sports car.
