FORMITALIA Luxury Group

Soft luxury, sensual embracing lines, a complete lifestyle that anticipates fashion and furnishing trends year after year.

The FORMITALIA collections reiterate David and Gianni Overi's constant work and studies. They are reaching for a center of luxury that becomes a lifestyle. A center of luxury consisting of embracing, upholstered pieces, comfortable armchairs, round beds and fiber optic beds, seating systems for lounging, sheets and blankets, towels, doors, accessories for the home, office and tabletop, for leisure, and sports accessories - golf bags and saddles, travel kits, bicycles and small scooters. FORMITALIA's international clients opt for a living environment that picks up strong signals that convey comfort, luxury and eclecticism that are expressed through the use of finest quality hides, artisan crafting and combinations of materials, colors and shapes that amaze year after year, creating and anticipating trends.

FORMITALIA uses ostrich, crocodile and tapir print hides dyed in a broad range of colors, with coffee tones predominating in the straw-grain leathers.

The Overi brothers play with a full 360 degrees of comfort: in SLEEPING A'ROUND (page 129). The large, round, 250 cm diameter bed, with its 240 cm mattress, is upholstered in straw-grain chestnuts leather and has a suede headboard, the

exclusive rust-color Mongolia spread completes the ensemble. The Wengè-finish wooden circular body is complete with handy drawers, a night table and lamps.

Continuing the bed's theme, the superlative lounging system SITTING A'ROUND (page 5) is characterized by modular elements that permit an infinity of arrangements and compositions. The multiple modules can be used to create curved and straight seating, with or without armrests, and tables that can be used to make elliptical, circular and sinusoidal shapes. The seats are sized for comfort: 95 cm deep and in widths of 60/70/90 cm. The structure and base are made of Wengè - finished wood covered in brown, croco-print leather; the seats are covered tapir-print leather and nabuk in coffee shades. The collection also includes a large armchair, that is 120 cm wide and 95 cm deep.

The luxury game continues with the DRINKING A'ROUND (page 190) bar ensemble that consists of the Wengè burl bar, with ample areas covered in brown croco-print leather - with a hand-hammered sterling silver medallion insert. Behind the bar, the Wengè burl and croco bottle rack also holds the coffee maker with coordinated leather inserts. The bar-and-bottle rack unit is 235 cm high and 190 cm long, while the bar proper is 105 cm high and 178 cm long. Two nickel-finish cast brass stools with croco seats complete the bar set.

Two more proposals for the bedroom: the first bonds perfectly with the above themes, and includes the MAKE UP A'ROUND (page 132) vanity that is made of wood covered with chestnut color straw grain leather, with room for the comfortable hassock, and there is the mirror with a straw-grain covered frame as well. The Dressing Room - large (100 x 200 cm) bronzed mirrors with matching straw-grain leather covered frames complete the bedroom.

LETTO OPTICAL (page 240), the fiber-optic canopied bed is truly unique. It is part of the "Collezione ROBERTO FALLANI per FORMITALIA" that includes fiber-optic table and floor lamps. The satin-finish aluminum bed

Formitalia clamps.

The colors of the Formitalia 2004 Collections: all the shades of honey, amber, coffee, chestnut, tobacco, and Havana.

In 2002 the FORMITALIA Group began working with TONINO LAMBORGHINI (page 241). Today they are presenting the new collection of sofas and furnishing accessories inspired by the world of auto racing, complete with the bull logo and styling details in pure aniline leather, decorations and chrome-plated metal that are clear references to the great Lamborghini family.

The collection includes a series of armchairs and sofas, executive office items and slim, modern lighting fixtures with a hint of aggressiveness to satisfy the need for status symbol and sturdiness. The brand's luxury is evident in the typical FORMITALIA quality of the materials and workmanship: soft, ostrich-print aniline-finish leather, and "breathing" holes in the leather that recall sports car.

The 2004 collections are available in shades of brown, black and racing red that make the line dynamic and readily adaptable to any furnishing and decorative schemes.

Here too, TONINO LAMBORGHINI has imbued the collection with his passion for design research that best expresses his dedication to elegance, quality and class. And we see it all in collections that link tradition to innovation, esthetics to sophisticated mechanics that are barely whispered, yet fully audible in the careful detailing and technological touches like the torpedo zippers, the flexible plaited steel components and the low laser-pierced chassis.

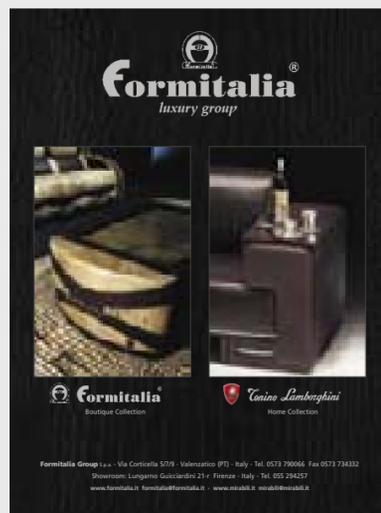

All these features are also evident in the accessories - the tables, lamps, silks and ceramics that are made to coordinate with each sofa.

The Lamborghini concept for the executive office, TOURING (page 264), features comfortable armchairs with a raised bull motif, large desk with automobile style metal trim, table lamps, humidior, desk pad, containers and floor lamps. The upholstered items recall the world of racing, with the IMOLA seating system: armchair and sectional sofa and the ZANDWOORT (page 264) and MONZA (page 246) armchairs that are distinguished by comfort, logos, auto-style metal finishes and, of course the quality of the leathers and workmanship.

Through the agreement with the FORMITALIA GROUP that exports to over 50 countries, the TONINO LAMBORGHINI signature line for the home, made for the high end of the market, is sold in single-brand franchise stores and corners in the world's finest department stores.

is dressed with sparkling fiber-optic drapes and canopy - a remote control device makes it possible to select any of the 5 colors at will. The bed is covered with a sable-finish, optical print lapin spread in classic black and white.

The comfortable VARENNE (page 56) armchair, a FORMITALIA must, completes the collection. The structure is covered in honey-color straw-grain leather, the back and seat are in matching shades of nabuk. On either side the roomy magazine/document racks reveal the artisan care that goes into the leather crafting. The Varenne armchair features the famous, patented
