Aplomb, outdoor

by Lucidi, Pevere

FOSCARINI

DESCRIPTION

Outdoor suspension lamp with direct down light. Outdoor concrete diffuser, consisting of an original amalgam coloured with pigments and achieved by manually casting the fluid mixture in a mould. The lighting technology part inside the cone consists of an aluminium housing which acts as the dissipator for the COB LED screened by a transparent polycarbonate lens. Electrical cable coated in black neoprene for outdoor use, without canopy, fitted with terminal board and Schuko plug. Cable winding kit available upon request. The Pompeian red, sage green and light grey colours of the outdoor version are different from the brick red, olive green and concrete grey colours of the Aplomb indoor version.

Designer

FOSCARINI

LUCIDI, PEVERE

Following initial training on the Milanese design scene, Paolo Lucidi and Luca Pevere set up their own studio in Udine, engaged in a constant challenge to create new product types, in search of unprecedented materials and technologies.

Synergy with Foscarini research led to the birth of the Aplomb lamp collection, comprising shapes balanced between architecture and design made with an exclusive cement paste; Bahia, a sophisticated graphic sign and a bright game of lights and shadows; Lake, a coloured spot with an organic and asymmetric shape.
