Natural Beauty

Grains, knots and holes grant a unique appearance to each Eichholtz coffee table with a petrified wood tabletop. Characterised by natural black, brown, grey and white tones, these distinctive coffee tables are suitable for a variety of interior styles and colour schemes.

Petrified wood literally means: wood turned into stone. Trees that have been buried under sediment for many years can transform into stone. While retaining the original structure of the stem tissue, all the organic materials are replaced with minerals.
